()

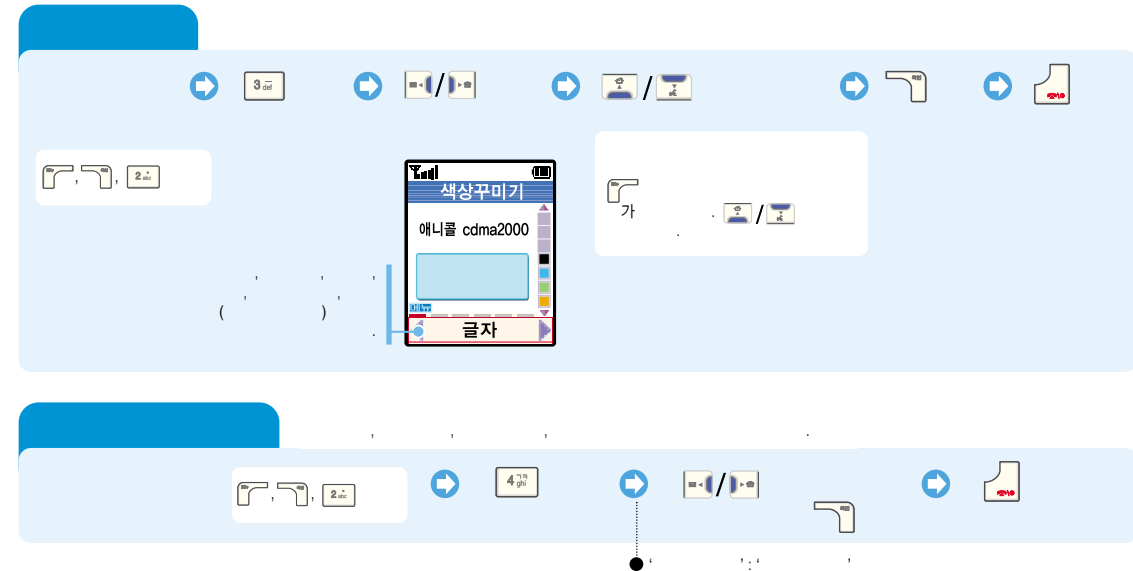

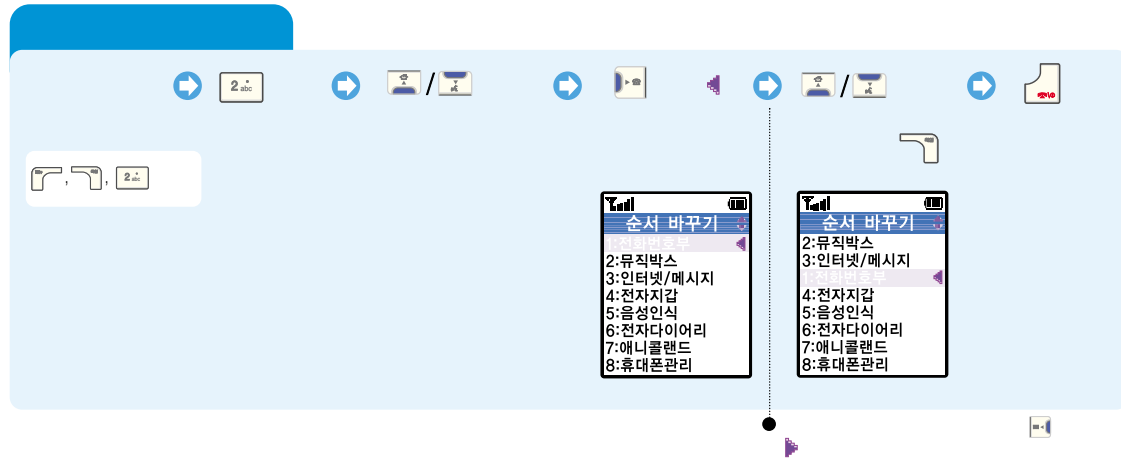

Diagram illustrating a simple neural network structure with three layers:

- Input Layer:** Two nodes labeled "abc" and "2 abc".
- Hidden Layer:** Two nodes labeled "5 ju" and "1 .qz".
- Output Layer:** One node labeled "2 abc".

Arrows indicate the flow of information from the input layer to the hidden layer, and from the hidden layer to the output layer. A green box on the right contains the text "PC 2000".

Your Phone

Phone Layout

Key Functions

In Standby Mode, enters Start Menu Mode.
In menu mode, opens the options of the selected menu.

In Menu Mode, select the current menu or option.

In Standby Mode, quickly enters the appropriate menu as listed below:

- : Main menu mode.
- : **Phonebook** menu. Shows a list of the whole phonebook entries when held down.
- : **Voice** menu.
- : **Message Setup** menu. Allows you to quickly access your voice mail server when held down.

In Standby Mode, allows you to quickly connect to the **NATE** service.

Makes or answers a call.
In Standby Mode, recalls the last number dialed or received.

Deletes characters from the display.
In Menu Mode, returns to the previous menu level.

Ends a call. Also switches the phone on and off when held down.
In Menu Mode, cancels your input and returns to Standby Mode.

Enter numbers, letters and some special characters.

In Standby Mode, enters or exits the manner mode when held down.

In Standby Mode, locks the phone when held down.

(on the left side of the phone)
During a call, adjust the earpiece volume.
In Standby Mode, adjust the key and folder tone volume.
In Menu Mode, scroll through the menu options and phonebook memory.

Display Icons

Shows the received signal strength. The greater the number of bars, the better the signal strength.

Appears when a call is in progress.

Appears when service is not available. When it is displayed, you cannot make or receive calls.

Appears when you set an alarm/morning call.

Appears when you receive a new message.

Appears when the Manner mode is active or you set the phone to **Vibrate** when you receive a call in the **Bell/Vibrate** menu.

Appears when a new broadcasting message has been received.

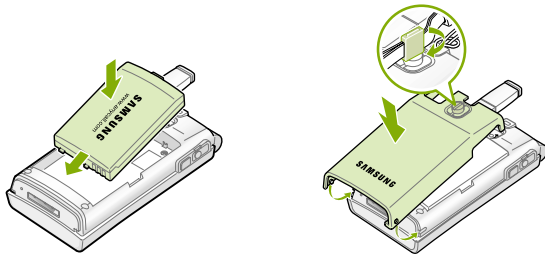

Shows the level of your battery. The more bars you see, the more power you have left.

Using the Battery

Installing the Battery

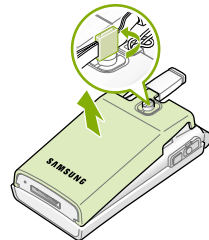

1. Insert the battery into the slot at the back of the phone, and then press the battery until it snaps into place.
2. Place the battery cover on the back of the phone, and latch the cover by rotating its lock clockwise.

Removing the Battery

At first, turn the phone off by pressing the  key before removing the battery.

1. Rotate the lock on the battery cover counterclockwise to release the cover and lift the battery cover out of the phone, as shown.

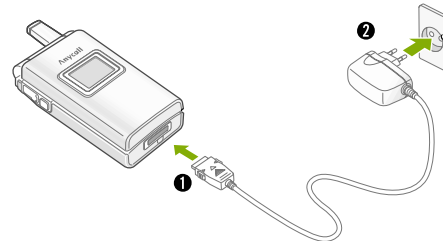

2. Remove the battery from the phone.

Charging the Battery

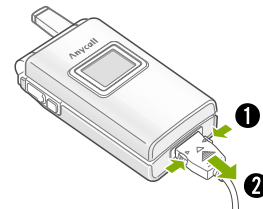

Charging With a Travel Charger

Note: The travel charger is optional item. If you want to charge the battery, you need to purchase it. Use only the approved travel charger. Ask your local Samsung dealer for further details.

Using the travel charger, you can use your phone while the battery is being charged, but this causes the phone to charge the battery more slowly.

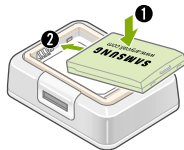

1. With the battery in position on the phone, plug the connector of the travel charger into jack at the bottom of the phone.
2. Plug the travel charger into a standard AC wall outlet. The LED on the charger indicates the charging progress as listed below:
 - Red: the battery is charging.
 - Green: the battery is completely charged.
3. When charging is finished, unplug the travel charger from the power outlet and from the phone by pressing the gray tabs on both sides of the connector and pulling the connector out.

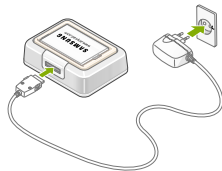

Charging With a Battery Charger

Using the battery charger, you can charge the battery alone.

1. Insert the battery alone into the slot of the battery charger, ensuring the terminals on the battery contacting with those on the charger and press the battery until it snaps into place.

2. Plug the connector of the travel charger into the jack at the bottom of the battery charger.
3. Plug the travel charger into a standard AC wall outlet.

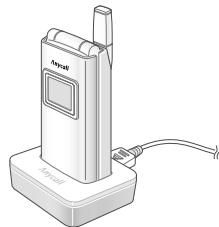

4. When charging is finished, unplug the travel charger from the power outlet and from the battery charger. Refer to step 3 on page 189.

Note: The LED on charger face into the ground.

5. Take the battery out of the battery charger.

Note: While charging the battery, you can stand the phone on the backside of the battery charger as shown below.

Switching the Phone On/Off

1. Open the phone.
2. Press and hold the  key until the phone switches on.

When your phone finds the network, the idle screen appears on each display. Now, you can make or receive a call.

3. To switch the phone off, press and hold the  key until the power-off image displays.

Basic Functions

Making a Call

1. Enter the area code and phone number.

Note: If you make a mistake, press the  key to clear a wrong digit. To clear the whole display, press and hold the  key.

2. Press the  key.

Ending a Call

When you want to finish your call, briefly press the  key. Or, close the phone.

Answering a Call

When a call comes in, the phone rings and displays the caller's phone number, if the Caller Line Identification service is available. For detailed information, contact your service provider.

When the phone is ringing, open the phone. If the phone is already open, press the  key.

Rejecting a Call

When the phone is ringing, press and hold the  key.

Adjusting the Volume

During a call, if you want to adjust the earpiece volume, press the  keys on the left side of the phone.

In Standby Mode, you can adjust the key and folder tone volume using the  keys.

Switching to the Whisper Mode

Whisper Mode automatically increases the microphone's sensitivity to allow the other person to hear your voice even though you may be whispering.

During a call, press and hold the  key to switch to the whisper mode.

To go back to the normal mode, press and hold the  key again. Or, when the call ends, the mode automatically turns off.

Quickly Switching to Manner Mode

Manner Mode is convenient when discretion is required and you wish to stop the phone from making any noise, in a theater or at a library for example.

In Standby Mode, to switch your phone quickly to the manner mode, simply press and hold the  key.

To exit the manner mode and reactivate the previous sound settings, press and hold the  key again.

Redialing the Last Number

To redial the last number you dialed, press and hold the  key.

To redial one of the number in the Call Records list:

1. In Standby Mode, press the  key.
2. Press the  or  key until you find a number you want to dial.
3. Press the  key.

Storing a Phone Number

1. In Standby Mode, enter a number and press the  key.
Or, after ending a call by pressing the  key, press the  key.
2. Select an icon to identify the category of the number to be stored and press the  key.
3. Enter a name. For further details about entering text, refer to "Entering Text" on page 194.
4. If necessary, press the  or  key to move to the desired input field and enter information about the person.
 - Home/Mobile/Work/Other/Fax: Enter various phone numbers. In the input box on the right side of each category, you can set the speed-dial number.
 - E-mail: Enter the person's e-mail address.
 - Group: Define the caller group to the entry.
 - Memo: Enter other information about the person.
5. Press the  key.
6. Press the  key to confirm storing the entry.

Speed-dialing

Once you have stored phone numbers in the phonebook with the speed-dial number (refer to the previous section), you can easily and quickly dial them, without needing to remember the numbers.

- For memory locations 001 ~009: Press and hold the last digit.
- For memory locations 000, 010~999: Press the first digit(s) of the phone number and hold down the last digit.

Four-digit Dialing

You can enter the last four consecutive digits of a phone number in Phonebook or Call Logs and your phone can dial the entire number for you.

You can quickly dial a phone number in Phonebook or Call Logs by entering its last four consecutive digits. Your phone automatically dials the phone number matching the four digits.

If there is more than one number that contains those digits, all of them are listed. Scroll to the number you want using the navigation keys and press the  key to dial.

Entering Text

To enter English words in a text input field, change the input mode to **A** (upper-case mode) or **a** (lower-case mode) by pressing the  key.

Press the keys labeled with the required letter:

- Once for the first letter
- Twice for the second letter
- And so on.

For example, press the **2** key three times to display the letter "C" and the **5** key two times to display the letter "K".

The cursor moves to the right when you press a different key. When entering the same letter twice or a different letter on the same key, just wait for a few seconds for the cursor to automatically move to the right, and then enter the next letter.

To enter a symbol, select  from the input modes and scroll to a symbol using the navigation keys. Press the number on the left of the symbol. To exit symbol mode, press the  key.

To enter numbers only, select **1** from the input modes and press the number.

Menu Functions

Using the Menu

The phone offers a range of functions that allow you to tailor the phone to your needs. These functions are arranged in menus and sub-menus.

Example: Changing the display language to English

1. In Standby Mode, press the  key to access menu mode.
2. Press the  key to enter the **My Phone** menu.
3. Scroll with the  or  key to reach **/Language**.
4. Press the  key to enter the menu.
5. Scroll with the  or  key to highlight **English**.
6. Pressing the  key.

You can also use the index number to access the **/Language** menu function; press the  key for Start Menu Mode, the  key, the **7** key for **/Language**.

My Phone (the key + the key)
